LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues:—

Montevideo 24.

All the Blanco employes will be dismissed. Nin Reyes has been dismissed from the Statistical Bureau, of which he was Chief.

Apolo goes up.

Storm threatening.

Umberto Primero has arrived.

President had long conference yesterday with Finance Minister about financial telegrams from London.

Mr. Cosati, well known merchant here, died in France.

National colonies will be started in Florida and other departments.

Yesterday's storm did much damage in the camp.

No cows to be had for the saladeros.

Gualeguaychu 24.

Gefe Politico calls on the farmers to root out the "cardo negro" which is spreading in an alarming away all over the camp.

PENAL SETTLEMENTS.

An excellent idea has been started by the Government, to plant a Penal Colony at the tail end of the Republic, as far as possible from the Capital—on the confines of the Patagonian territory. This is an old policy of colonization which has given the very best results in other parts of the world—in Australia, for instance, where a new nation is springing up in the broad glare of the XIXth century; the convict was the foundation stone of Australia. Previous Argentine Governments, finding it too complicated a task to deal with the numerous criminals, got rid of these objectionable characters by sending them in batches to Patagones, where they have prospered, have raised families and have redeemed the errors of the past. Patagones was then a favourite spot for transportation—but at present it is altogether too near Buenos Aires for the purpose. The old custom of transportation having been abandoned, we see the Penitentiary over-crowded and the Government of Buenos Aires building new prisons to house all the rascals roaming about the Province, murdering fellow-creatures, stealing cattle and cutting fences. The very ranks of the army are filled with criminals, and it is high time that something should be done to remove them to telescopic distance.

There are few indeed who will for one moment doubt the existence of sufficient criminal elements in this country to start a populous penal settlement. There is a plethora of the raw material in all communities—foreign or native; locked-up in prisons, doing little or nothing, roaming about the camps or drilled in the army, they fail to make themselves useful to the country at large—they would be far better employed breaking stones at Sierra Chica or digging in Puerto Deseado. The latter place is more favorably situated for a penal settlement; a start might be made with 1000 individuals of both sexes under superintendence of a governor and of a company of the troops of the Line; farms might be given and implements distributed amongst the pioneers of the penal colony; the first year the Government would be morally obliged to give the colonists rations, but the second year let them produce their own food; the surplus of their produce to be sold to pay off their expenses occasioned during the first year. In fact the colonists would be obliged to work in order to live, and this is the "bona fide" method, instead of taxing the public to support the criminals of a community.

The wonder is that the great moralists of this city do not take up this all important matter; those who are so charitably disposed towards criminals, who beg them off when they should be hanged, should now step forward and advocate a policy which tends to remove the criminal to more distant parts, and to redeem him from vice and crime. Viewed from a moral standpoint, the penal settlement proposed is most laudable and from a social standpoint most desirable, as it will remove to a distance of several hundred leagues individuals who are best away.

THE NOVILLO.

The sale which we report to-day of horned cattle "al corte," at $139 m/c each, has startled the whole country as to the future of our "Novillos." Cattle are declining so fast in price, that we shall soon be able to buy "rodeos" for the new camps at $100 m/c "al corte," which is a lower price than has been known in this country since the fall of Rosas. Of course, this great fall in the price of breeding cattle helps the steady increase in the purchasers of new estancias, since the starting of a cattle estancia to-day does not cost within fifty per cent of what it did a couple of years ago; and although the price of good estancia lands is rapidly rising, still, for beginners, we cannot recollect a more favourable period than the present, both sheep and cattle being at such remarkably low prices.

The following recent advices from England, respecting the frozen meat market bears so much upon River Plate interests, that they will be read with much interest by all. To our mind the future of the "Novillo" in the Plate hangs on the Haslam Freezing Patent. We have two cargoes of mutton already on the way to England preserved by the Haslam Freezing process, and with intense interest we watch the account sales of these cargoes.

The following are the English advices:—

"The trade for frozen meats during the past few weeks has been without animation, and values have remained at a comparatively low level last reported. The following progress has been made with Colonial consignments: Catalonia; balance cleared out at recent quotations—5¼d. to 5⅝d. per lb. Orient; in good order, and sold at an average of about 5d. per lb. Lyttelton; this shipment, as a whole, proved to be in fair condition, but some few carcases were inferior. It has all been disposed of at from 5¼d. to 5⅝d. per lb. for the best portion. Fresh arrivals have been the Doric from Lyttelton, which reached dock on 18th ult. with 9,207 carcases mutton, and 266 pieces beef. These were all in good order, but as some of the sheep are too small for the existing wants of the market, considerable differences in prices are reported. Up to the present about 4,200 have been sold at quotations ranging from 4¼d. to 5¼d., and occasionally 6d. per lb., according to size and quality. The beef has realised 3¾d. to 5d. per lb. for quarters, while for selected pieces as much as 6d. per lb. has been secured. Garonne from Melbourne, arrived on same day, have on board 3,636 carcases mutton, carefully butchered and in perfect condition. The price obtained for the 1,000 carcases disposed of has been 5¼d to 5⅜d. per lb. throughout.

"Since Monday last 200 sides of beef from Liverpool have been sent into the Dead-Meat Market at Glasgow. The beef handles well, and is altogether much superior to the beef from the half-fed Irish cattle, which the fleshers have had mostly to depend on for the past five weeks. It finds a ready sale at 7d. per lb. One firm of Glasgow fleshers bought 100 States cattle in Liverpool on Monday, and are having them slaughtered there, and the carcases brought to Glasgow.

"At a meeting of the French Cabinet last week the question concerning the importation of American pork was discussed. It was decided to rescind the decree prohibiting its importation provided that the municipalities or the Chambers of Commerce of the localities interested agreed to organise a system of inspection with the object of controlling the quality of the article imported. The system is identical with that advocated by the towns of Havre and Marseilles, and it is considered certain that a settlement of the matter will shortly be effected on this basis."

THE TRAMWAY FARES.

This unpleasant matter has been settled. At the conference held on Wednesday between the President of the Municipal Deliberative Council and the managers of the Tramway Companies, the following agreement was come to:

"In the city of Buenos Aires, this 23rd of January 1884, the President and Vice President of the Deliberative Council of the Municipality and the representatives of the five tramway companies of this city having assembled, the President stated that:—He had summoned the representatives of the Tram Companies to a purely friendly meeting (although, in his opinion, the companies were fully authorised by law to raise their fares, without any consultation with or permission from the authorities) to see if it were possible to overcome the difficulties that had arisen owing to the opposition of part of the press to the new rates, and come to an arrangement that would satisfy all parties. The Tramway representatives expressed every willingness to meet the views of the President, and after an exchange of opinions on the subject, the following was agreed to:

"That the new tariff published shall remain in force, but, in place of selling the subscription tickets in books of ten each, they shall be sold in books of five, at the stations or by the guards, so that whoever buys five of these tickets—which are current on all the lines—will have paid eight National cents each for them. The Tramway representatives stated, in order to avoid all cause for public discontent, they had privately agreed to go on selling tickets at two and three paper dollars to whoever wished to pay their fares exactly in Provincial currency; but in the opposite case, when the fare is paid in "moneda corriente," the new tariff will be charged, vid, if a person hands a five paper dollar note to pay a fare, the new rate will be charged. All present having agreed to the foregoing arrangement—by which anyone possessed of forty National cents can travel at a reduction of 3 per cent on the old fares—the business of the meeting was declared finished and all present signed and sealed this agreement.

The Trent's Mails.

A large meeting of Bonapartists having expressed thanks to Prince Victor Bonaparte for disavowing those who misused his name, and imputed to him an unfilial and dishonourable role, Prince Napoleon yesterday, on being presented with this resolution, said—

"I thank you for handing it to me. I am touched by it as by all the demonstrations which prove that I possess a community of ideas with the great democratic mass of the Bonapartists. I shall inform my son of it. Have confidence. Despite interested calumnies, truth always eventually prevails in this noble country, France, where frankness and firmness of opinion are especially appreciated. Rely on me, as I rely on you."

Sir Charles Dilke stayed only one day in Paris, on his way south, and he will not return till about January 12th, the Cabinet Councils not being resumed till about the 15th. He saw several members of the French Cabinet, but of course had no diplomatic mission.

The engagement is announced of the Hereditary Prince of Dessau with Princess Elizabeth of Hesse, daughter of the Landgrave Frederick of Hesse.

The last few years will figure as a very barren period in the dramatic literature of Germany, but at length something of merit has been produced, if one can at least accept the judgment of the Grillparzer Foundation Jury at Vienna, which has just awarded their prize of 1,500 gulden to Herr von Wildenbruch for his historical tragedy of Harold, a drama which has been much more attractive here than Mr. Tennyson's—I beg his pardon, than Lord Tennyson d'Eyncourt's—piece of the same name in London.

Herr von Wildenbruch is employed in the Foreign Office here, and is the author of several popular poems, tales and dramas, one of which, "The Carolingians," is now being played with acceptance in the Schauspielhaus. It was Herr von Wildenbruch who composed the poetic eulogy that was recited at the costume ball in honour of the silver wedding of the Crown Prince and Princess; but, unfortunately for him, there is no Prussian office of Poet Laureate.

The German Crown Prince arrived the day before yesterday at Verona, and after a quarter of an hour's stay, during which he reviewed the guard of honour and had the local officials presented to him, he continued his journey. At Ala, the frontier station between Italy and Austria, he took leave of his Italian suite, and once more, by telegraph, thanked King Humbert for his hospitality.

Berlin, Dec. 23.

After an absence of several weeks in Spain and Italy, the German Crown Prince, with his suite, returned here this morning. A large crowd had assembled at the station and before his palace to welcome him, which they did by loud cheers, and on the platform were awaiting his arrival his son-in-law, the Hereditary Crown Prince of Saxe-Meiningen, the Ambassadors of Spain and Italy, Count Hatzfeldt, of the Foreign Office, and a large number of military and other persons. Despite the fatigues of his tour, the Crown Prince looked, if possible, more fresh and robust than ever, and was in the best of spirits. After joining his family, he had a long interview with the Emperor. The Press, which followed his wanderings with a jealous and an exultant vigilance, greets the return of the Prince almost as warmly and effusively as it hailed his triumphant home-coming from the Bohemian and the French campaigns. It is proud—all shades of it—of the signal honours that have been heaped upon him, and of the many hearts he has won; it regards his tour as having greatly contributed to the maintenance of the peace of Europe, and as having "conclusively proved that Germony is now loved as well as feared."

It is, perhaps, a little more than a mere coincidence that on the morning of the return of the Crown Prince from Rome Cardinal Prince Hohenlohe performed high mass in the Catholic church close to the Place.

The Crown Prince of Germany has sent his bust in bronze to the Syndic of Rome, in remembrance of the happy hours he spent here. His Imperial Highness also left 3,000f. for the poor of Rome.

The accident to the Emperor of Russia proves to have been more serious than the first accounts represented. Even if the consequences remain localized, it is thought that several weeks will be necessary for his recovery.

I learn by a private telegram from St. Petersburg that the Czar is better (va mieux.)

The Emperor of Austria, the Crown Prince, and their guests have returned ed sooner than was expected from their shooting expedition in Styria. The snow in the higher regions is so deep that it renders any sport impossible.

The Crown Prince received yesterday Sir Henry Elliot in a farewell audience, and soon afterwards the new French Ambassador. Not only in the official world, but in Viennese society, the departure of Sir Henry Elliot is very much regretted.

Foreign Office Economy.—A correspondent writes:—"It having been decided to raise the salary attached to the post of Consul-General in Egypt from £500 to £4,000 a year, the Foreign Office has consented to the additional money being obtained by the reduction of the salaries of the Ministers in Belgium, Portugal, and Denmark. By a strange coincidence, two out of the three gentlemen who will thus suffer in order that the value of the post of Consul-General in Egypt may be increased will be Sir Evelyn Baring's two immediate predecessors in the office he now holds."

Sir Rivers Wilson, who is at Brighton, had a relapse a few days ago, but Saturday's bulletin stated that he was a little better. In the circumstances, his visit to Paris has been indefinitely postponed.

FRANCE, CHINA AND TONQUIN.

Hongkong, Dec 22.

The French transport Drac has arrived here, bringing an official despatch from Admiral Courbet, announcing the capture of Sontay. The French lost 100 men.

An immediate advance on Bac-Ninh is expected.

Paris, Dec. 23.

M. Jules Ferry gave last night his inaugural diplomatic dinner. The company numbered 80. Lord Lyons sat on his right, and Prince Holenhohe on his left. The semi-official Havas Agency says:—

"The Marquis Tseng, who had accepted the invitation to the dinner, excused himself that morning. He announced that he was unwell. . . . The members of the Diplomatic Corps warmly congratulated the Premier on the success achieved at Sontay by the French troops."

Nobody can wonder at the Marquis Tseng's indisposition. What is surprising is, that the Marquis on Friday, when the attack on, if not the capture of Sontay was known, should have called on Madame Ferry to announce his intention of attending that dinner. A few hours later the fall of Sontay was known in Paris, and next day the Chinese Ambassador excused himself. It was obviously carrying politeness rather far to propose to sit at the table of the French Minister of Foreign affairs, while French troops were scaling the ramparts of Sontay; but, even at Pekin, it was doubtless considered as going too far, to sit at a table at which, at least *in petto*, champagne was drunk in honour of the fall of the first of the two places, the simple attack upon which was to have constituted a *casus belli*, according to the declaratiou of the Marquis Tseng, published by the *Times* on Monday last. The Chinese Ambassador has, fortunately, in this case, waged diplomatic war as actual war was formerly waged in China; and he only spoke of a *casus belli* in the hope of scaring France, and preventing the attempt to take the fortress. Nothing has or will come of it.

The Marquis will leave France tomorrow for England, not with any warlike intentions, or to pass, as some French newspapers say, "the Christmas festivities with his family," but to escape from a situation which is more than embarrassing, and which can only be prolonged at the expense of his dignity. Moreover, the Marquis makes no secret of the perfectly diplomatic character of his complaint; and I was able to ascertain this by a long interview with him this morning. I observed, however, that he was sorely disturbed in mind by the event referred to, and that he did not show the lucidity and diplomatic sense which usually characterize him. The Marquis reckons on some change of season for resuming the offensive, and indulges vague hopes, which clearly indicate discouragement. He sees that his hints will not hinder the French from taking Bac-Ninh, and have not prevented them from taking Sontay. And he sees that the possession of Sontay, Bac-Ninh, Hanoi, Namdinh and Haiphong, places the entire delta in the hands of France: After the easy capture of Sontay, by so small a force, it would be a delusion to fancy that Bac-Ninh will not also fall, and the Marquis Tseng's uneasiness is easily accounted for by his conviction that, from a military standpoint, China has little to hope.

Fortunately for her, other interests are at stake, otherwise the possession of Tonquin and Annam might be deemed a settled thing. Serious resistance by China, either by land or sea, cannot, after this experience, be counted upon. Hence yesterday's *Temps* ironically remarks:—

"Our victory will rejoice the *Times*, which amicably declares that the English wish France to be strong and free from all embarrassments abroad. The demonstration of our strength cannot but tend to dispel these embarrassments. This seems to the *Times* a propitious moment for again proposing that mediation between ourselves and China, which Great Britain seems inclined to promote—as much, doubtless, in British interests as with a view of serving us."

The *Temps* is really too modest. France has had more conclusive opportunities than the capture of Sontay of demonstrating her strength; and that capture alone would not be very decisive. The Sontay garrison evidently resisted, but the speedy victory proves that China, as a military Power, is by no means formidable. It may, therefore, be foreseen that Bac-Ninh and the entire Red River delta will soon be in French hands, and that unless she accepts mediation, France will treat direct with China as she has treated direct with Annam.

The French papers report the marriage of Gambetta's father. The bride is his servant, a portly Italian of 45.

CONSUL BAKER'S REPORT.

AGRICULTURE IN THE ARGENTINE REPUBLIC.

It appears that the total amount of land reported to be under cultivation in 1875 in the entire Argentine Republic was only 825,492 acres, of which 271,436 were in wheat, 249,396 in Indian corn, 209,572 in alfalfa, and the balance in other crops. As these returns, however, are known to have been very carelessly taken, it is not too much to add 20 per cent. to the above, which would give the whole amount of land devoted to crops in the republic at the date mentioned at about 1,000,000 of acres.

But this was nearly ten years ago. Since then, while there has probably been but little change in any of the far interior provinces except, perhaps, Mendoza, Tucuman, and Santiago del Estero, there has been a very notable increase in the number of acres which have been placed under cultivation in the Provinces of Buenos Ayres and Santa Fe.

In Tucuman and Santiago del Estero, within the last few years, a large additional breadth of land has been planted in sugar-cane, but I am unable to give the figures.

THE AGRICULTURAL PROVINCE OF SANTA FE.

In regard to Santa Fe, the especial seat of the agricultural colonies, the Government of that province takes great pains to keep the public informed of their progress and condition. The following figures embrace the statistics for the six years ending with 1881:—

Number of squares in cultivation—1876, 61,800; 1877, 78,244; 1878, 1879, 104,949; 1880, 124,205; 1881, 162,495.

Number of squares in wheat—1876, 41,223; 1877, 59,069; 1878, 59,069; 1879, 73,965; 1880, 80,012; 1881, 108,830.

Number of squares in Indian corn—1876, 8,751; 1878, 10,678; 1879, 12,593; 1880, 18,952; 1881, 24,276.

Number of squares in flax—1880, 3,628; 1881, 4,821.

Number of squares in barley—1878, 8,497; 1879, 1,467; 1880, 3,908; 1881, 6,483.

Number of squares in peanuts—1879, 1,884; 1880, 3,107; 1881, 3653.

Number of squares in other crops—1879, 15,040; 1880, 14,598; 1881, 13,533.

Number of feet of vines trellised—1876, 19,702; 1877, 19,712; 1878, 21,246; 1879, 45,667; 1880, 59,343; 1881, 72,930.

Number of fruit trees—1876, 1,461,899; 1877, 1,471,899; 1878, 1,885,546; 1879, 2,245,947; 1880, 2,519,750; 1881, 2,602,579.

Number of mulberry trees—1876, 31,044; 1877, 31,044; 1878, 49,060; 1879, 35,108; 1880, 46,402; 1881, 37,840.

The wheat crop, in fanegas—1876, 228,727; 1877, 228,727; 1878, 220,845, 1879, 336,911; 1880, 473,591; 1881, 494,885.

By reducing the squares in the above into acres, it will be seen that in 1881 the total breadth of land under cultivation in the Province of Santa Fe was 649,980 acres, of which 435,320 were in wheat, 97,104 in Indian corn, and the balance in other crops; while the wheat crop was 494,885 fanegas, or about 3,003,031 English bushels, an average of about 7 bushels to the acre—owing to drought the yield being short.

Comparing the breadth of land under cultivation in the Province of Santa Fe in 1875 with that under cultivation in 1881, it will be seen that there has been an increase of about 500,000 acres in six years, with a corresponding increase in all the appliances of agriculture.

The following table, also compiled from official statistics, shows the assessed value of the properties pertaining to the Santa Fe Colonies for the year 1881:—

	Value. $ fts.
Farming lands	7,683,639
Fencing and corrals	1,738,615
Houses	4,992,560
Work oxen	1,267,004
Work horses	655,608
Mules	31,868
Cows	4,921,099
Mares	349,397
Sheep	244,364
Hogs	161,470
Threshing - machines with steam power	341,050
Threshing - machines with horse power	19,550
Steam flour mills	1,497,500
Horse flour mills	46,900
Reaping machines	1,167,785
Spring carts	130,540
Four-wheeled waggons	916,665
Other vehicles	158,704
Other agricultural implements	623,666
Total	26,948,054

The above figures show a very gratifying progress, and cannot be regarded otherwise than as most satisfactory.

LATEST FROM BRAZIL.

January 15th.

Since our last, dated the 9th inst., nothing of political, financial or commercial importance has taken place. Fortunately, the fears then entertained of great disasters in the interior, from inundations caused by the continuous rains, have not been confirmed by the accounts hitherto received, but in the inundation at Morretes, in Paraná, two lives are known to have been lost. Most of the railways in Minas Geraes and Rio de Janeiro, as well as that of Paraná, have suffered some damage.

Unfortunately, in Rio the cessation of the rains was followed by an increase in the mortality from yellow fever, which rose to 4 on the 8th and 6 on the 9th.

Promulgation has been given to the regulation giving effect to the law of 1870 requiring the monastic orders to convert their realty, except convents and beneficent institutions, into inalienable national stock within ten years.

Before daybreak of the 12th the jeweller's shop of Sr. Bernardo Gonçalves Viera e Silva, in Rua do Ourives, was robbed of about 30:000$ worth of gems and jewelry, by picking the lock of an adjoining hall and breaking through the wall.

The monitors Solimões and Javary left Rio on the 7th for their cruise about Ilha Grande, at which they arrived safely on the 8th.

The 1st Division was at Desterro at last dates.

The Plato, which had left on the 5th for the River Plate, returned on the 8th with the Cuvier in tow, the latter, bound from Rosario for Antwerp, having broken her screw blades. The Plato left again on the 8th.

In the forenoon of the 11th a collision occurred close to Ilha das Cobras, in the harbour of Rio, between the British packet Cavour, entering from Rio Grande do Sul, and the Brazilian packet Rio de Janeiro, leaving for the same port. Both steamers suffered injury, and the Companhia Nacional dispatched the Paraná on the 13th with the mails and passengers of the Rio de Janeiro.

Some arrests have been made in Rio of persons who seem to have been preparing for the manufacture of counterfeits of the treasury notes.

In Rio Grande do Sul six persons are under arrest for fabricating and issuing counterfeit notes.

Further telegrams from Paraná report two lives lost in the inundation of Morretes on the morning of the 5th.; the water covered the low-lying streets to a depth of 6 to 20 feet but, fortunately, with daylight it was possible to save their inhabitants in boats. The railway from Paranaguá to Morretes had to suspend traffic, and much damage was done to the Serra section, and also to the Graciosa carriage road ascending the Serra, rendering it impassable for some days.

AMERICAN IMMIGRATION AND ITS EFFECTS.

A number of tables bearing on the immigration question in the United States have just been published by the American Bureau of Statistics. It appears from the report for the fiscal year ended June 30 that there is a considerable falling off from the total of 1881-2, and even from the smaller total of 1880-1. The decrease compared with 1881-2 is 189,878 persons, and compared with 1880-1 it is 70,317. But with these two exceptions this year's total of 599,114 is the largest ever reached, so that there is still no permanent diminution in the stream of emigration to the United States. The great prosperity of the country in 1881-2 and the comparative failure of the harvest in Europe led to the exceptional high immigration figures in those years. "With the failure of our own crops, however," remarks the *New York Financial Chronicle*, "and the other adverse circumstances that followed, such as the check to railroad expansion and the consequent diminution in the consumption of many of our manufactured articles, the United States presented a less inviting field for emigrants intending to better their condition, and many no doubt were deterred who otherwise would have come. Besides, at the same time, the agricultural outturn in Europe considerably improved, which also helped to lessen the current, and, under the circumstances, it is perhaps surprising that the movement should have been so large as it has proved to be. There are some facts connected with the immigration movement during the past 20 years which are very noteworthy. In 1862 the total number of immigrants arriving in the United States was 89,000; in 1867 it had risen to 268,967; in 1873 it was 459,803; but in 1876 the number had fallen to 169,986; it was lower still in 1877 and 1878; but four years later only—that is, in 1882—the number had risen to by far the highest yet registered—788,992. From 1880 to 1883 inclusive the flow of population from Europe to the United States has been on a scale altogether unparalleled. In four years alone the country has received 2,500,000 new settlers, and if such a rate of increase be kept up, by the close of the century 10,000,000 more foreigners will have taken up their abode in the United States.

A table furnishing the relation of immigration to population is of considerable interest. It seems that for the ten years ending 1840 the total increase in the population was 4,203,433, of which 599,125 came by immigration. In the ten years ending 1850 the whole increase was 6,122,423, of which 1,653,275 came by immigration. In the ten years ending 1860 the total increase was 8,251,449, of which 2,639,556 was by immigration. In the ten years ending 1870 the total increase was 7,115,050, of which 2,281,142 came by immigration. In the census of 1880 the whole population of the United States was returned at 50,152,866, so that nearly a quarter of the entire population has been added between 1870 and 1880. It is expected that during the present decade quite 25 per cent. more will be added to the community. On this assumption, the annual increase would be 2½ per cent., equivalent to an addition each year of about 1,500,000. It is estimated that in June last the whole population of the United States numbered 56,000,000. With regard to the nationality of the immigrants, Germany has still a large preponderance, having for some years back furnished nearly one-third of the arrivals. England comes next, and Ireland occupies the third position.

As to the Dominion of Canada, which has ranked before Ireland, it is difficult to obtain accurate statistics, as the total comprises not only Canadians but immigrants from Europe, who proceed by steamer to Montreal and thence reach the lake ports of the United States by rail. Italy furnishes only 31,175, or a trifle less than for the preceding fiscal year. The following are the numbers of emigrants which the respective countries named sent to the United States during the year ending 30th of June last:—Germany, 191,643; England and Wales, 79,852; Dominion of Canada, 64,971; Ireland, 63,720; Sweden, 34,596; Italy, 21,715; Norway, 21,849; Scotland, 19,612; Austria, 10,517; and all other countries, 73,849. There was a decrease in all countries (with the exception of Scotland) compared with the previous year, which confirms the theory that the diminution was not due to any local causes in any countries, but to general causes applicable to all alike and having their origin in less favourable trade conditions in the United States and more favourable ones abroad. It is curious to notice the relative importance of the different cities as points of debarcation for the immigrants. The figures are therefore given of the number of immigrants landed at each of the ten leading ports where immigrants usually arrive in any considerable numbers. New York retains its great prominence, receiving about two-thirds of the entire momevent. Boston now comes second, taking the place of Huron, in consequence of the large falling off in the movement from the Dominion of Canada. Baltimore ranks fourth and Philadelphia fifth. The following is the list:—New York, 406,697; Boston, 48,188; Huron, 45,393; Baltimore, 35,690; Philadelphia, 24,807; Detroit, 17,109; San Francisco, 8,191; Passamaquoddy, [illegible]0; New Orleans, 1,707; and Minnesota, 1,182. There is a prospect of an increased immigration in the Southern States.

EDITOR'S TABLE.

The Tramway muddle is settled—after a fashion. There is some diplomat amongst the Tram managers who is too much for the President of the Consejo. The whole thing, after all the rumpus, reminds us of the clown in the pantomime when putting pantaloon through his drill—"As you was before you was as you was, as you was!"

Good news for the girls! A gallant city apothecary, who is doing such a roaring business in blisters, castor-oil and Cockle's Pills that he cannot get assistants enough to help him to sell them, proposes that ladies be admitted to the compounding profession. We beg to second the motion, but would like to hear what the ladies themselves say to the proposal.

The Electric Light is making headway. The Municipality of Gualeguaychu have called for tenders for lighting that venerable town with it.

Mr. Baizan is the wittiest of our auctioneers. He offers some sites for sale on Sunday next, in Calle Rincon, the property of a gentleman who is about to leave for another world (which? Europe or Hades?) and does not care a fig what price he gets for his property. This singular individual is, nevertheless, very "desconfiado," and intends to be present at the sale; but he is blind of one eye, and Mr. B. says he will get on his blind side and help the bidders to "corner" him, a very appropriate operation, the property being in Calle "Rincon."

We are all living like fighting cocks now in Printing House Square: German stout from Messrs. Day and Co; Havannah cigarettes from Mr. Mendez de Andes; peaches from Mr. Calzetta, and, finally, yesterday, a half ton block of the magnificent "Crystaline Ice" which Messrs. Bertuch and Co., of 1226 Piedad, are now turning out. But for it, we should not have survived the stewing heat of yesterday. A piece of Bertuch's ice in the hat keeps the head deliciously cool, and we recommend some of our colleagues to put a little in their inkbottles, to counteract the political fire of their articles.

We feel great pleasure in saluting Father Flannery, of San Pedro, who kindly called on us yesterday. We have never seen this esteemed clergyman in better health.

The official medical report of the public health for the past fortnight states that the terrible heat has given a stimulus to all complaints, owing to people eating too much fruit and drinking too much of all kinds of liquids, except water, which the Board took care should be very scarce. The death rate is higher, as is usual at this season, but there is no sign of any epidemic disease, and, on the whole, the public health cannot be called bad.

We are glad to read in the *Union* that our distinguished colleague, Don José M. Estrada, is sufficiently recovered from his recent illness to be able to resume his editorial pen.

A man in Arkansas fired into a crowd gathered at a horse race, and peppered three judges, five colonels, six majors, one general, and an ex-member of Congress.

A fire in a burial ground is rather an unusual accident, but they had a stiff blaze in the cemetery of Dolores the other day, and several corpses had a narrow escape of cremation. The mishap was caused by some candles being left lighting in a vault.

A sad story comes from Ramallo. About a fortnight ago a poor little girl of *twelve* years was forced, by her unnatural parents, to marry a Neapolitan of 40. The moment the ceremony was over in the church the poor little bride burst off and ran away through the streets, but was caught and handed over to her husband. The poor little victim was in such despair that she lost her reason and is now in the Mad House in this city. There ought to be some law to punish such parents. It appears they forced the child to marry, thinking that the Neapolitan was rich, whereas he has not a copper to jingle on a tombstone.

The papers say that Judge Tedin will take about ten days more to consider his decision in the expropriation of the Recoba case.

A terrific hurricane was felt at Pando, B.O., the other day. Great damage done to roofs, doors, windows and trees. The roof of the railway station suddenly started, at 100 miles an hour, for the Equator or North Pole, nobody can tell which, and most of the houses in the town were inundated with torrents of rain.

There is a 'tornillo flojo' in our educational system. Two months ago the School Office demanded some simple drawings and plans of the National Colleges and Normal School buildings in the republic. All kinds of frivolous excuses were made, and one naive Rector or Director said he had no engineer to draw the plans. This is queer, considering that in each of the schools and Colleges there are Professors of Geometry, Topography, Surveying, Lineal Drawing, etc., etc.

We received yesterday by the Trent plans and prices of splendid wooden houses, and we recommend our subscribers to call and look at them. They are just the thing for a man making a start in the new lands to be rented by the nation.

Grocers have prodigious luck. The big prizes in the Capital and San Luis Lotteries were won by two grocers in this city, one living in Calle Moreno and the other at the Boca.

Another suicide yesterday in Calle Temple. A man named Verges shot himself as dead as a stone.

The new capital of the province is already lighted by electricity. There are five Brush lights working every night, and giving the highest satisfaction.

The Department of Civil Engineers has reported unfavourably on the proposal to run an iron mole to the Outer Roads.

The cry is, still they come! On the 1st of February a new passenger will enter the Editorial 'Bus—the *Figaro*, on the model of the *Petit Journal* of Paris. Its price will be two cents. If well edited, it will pay.

The Montevidean Deputies were paid their hard-earned salaries the other day in gold "Argentinos," of which pretty coin there appears to be more knocking about Montevideo than here, probably owing in part to the crowds of Argentine visitors down there just now, but mainly to a very clever exchange operation, which left a nice profit.

The Stirling Castle (Nord America) is expected to-morrow in Montevideo.

The weather telegrams from the camp show that the rain has been pretty general, but the West got the most of it.

Cobden once threw the House of Commons into convulsions of laughter by an unconscious joke at the expense of Mr. Bright, who had just obtained a seat in Parliament. "The business of my honourable friend," said he, "is spinning yarns of low quality."

Proceedings have been taken against the Criminal Judge of the Province, Dr. Ramos Mejia, with regard to the case of a man named Genaro. Genaro was arrested six months ago, charged with the murder of his sister, and since then has remained a prisoner without being allowed communication with anybody. Guilty or not guilty, these arbitrary arrests are decidedly tyrannical, and the man is clearly within his right in demanding punishment or acquittal.

The "Argentina" is doing a roaring business. From morning until night there are always some to disport themselves in the ambient liquid. Apart from joking, the water is really refreshing, and the best that could possibly be had for the purpose. In the afternoon there is sometimes not even room for a fly.

The system of running the Post Office in La Gama must be pretty much like the Californian system in the wildest districts. Everything is scattered about the room, and the delivery is decidedly more of a promiscuous than a settled character. Many complaints are being made against the Chief of the Department there.

Terrible scene in a quinta in Temperley. A watch dog of the bull-dog species and canabalistic tendency nearly put an end to an old woman belonging to the quinta. The dog was chained up but managed to break loose and fell on the old women with such fury that before she could be rescued life was almost extinct. The animal was immediately destroyed, although he made a great fight for his life.

Our durable colleague *Iron* gives the following account of the wonderful freaks of a runaway locomotive. We have had nothing of the kind here as yet but it is to come:—"The power of a locomotive under full headway was illustrated in a recent accident which happened on the Lowell (Massachusets) branch of the Boston and Maine Railroad. While a construction train on that branch line was backing down on the main track it was struck in the rear by an approaching train, demolishing two cars. In the excitement the driver of the construction train opened the throttle of his engine instead of closing it, and then jumped off, along with the stocker. Under the extra pressure of steam the locomotive broke the connexion with the train, and started alone for Lowell. Meeting with no obstruction on the way, the engine plunged into the depot at a rate of speed estimated at 60 miles an hour. The first obstacle encountered was the heavy bunter at the end of the track, which was torn un and lodged on the cowcatcher. The engine next tore up the planking and beams of the floor and demolished one end of the baggage house. It next encountered a brick partition about 18 inches thick, which was scattered in all directions. After passing through this wall, it traversed the length of the U. S. and C. Express office, and struck the outside wall of the depot, abutting on Central-street, with such force as to drive the bunter, which had lodged on the cow-catcher, clear through a granite wall a foot in thickness, making a hole about 15 inches in diameter. This put a stop to its progress in that direction, and as the floor was not strong enough to longer hold the weight, the whole mass broke through into the cellar, where it came to a stand-still. A bystander had the presence of mind to make his way into the steaming mass of ruin and allow the steam to escape, and thus possibly prevent an explosion. The entire floor of the express office was broken away, and a large quantity of express matter destroyed. The only serious accident was that of an old lady of 70, who was in the express office at the time. She was so severely injured that she died in about two hours. The engine went about 100 ft. after leaving the rails before coming to a standstill."

The population of this city on the 31st. December last was 340,375.

There was a most terrific row in a young gentlemen's Club in Calle Cangallo the other night. Billiard cues and balls went flying about in all directions, and some heads were hurt. Finally there was a stampede for the door, and a lady who was passing by was knocked down and severly injured by the rush of the horde of unruly youngsters.

We have been coaxed to publish another letter about "Lily" and her swim and shower-bath. We really cannot understand all this interest in rather a plain-looking girl.

One of Henry Fox's jokes was that played off on the late Mrs.——, who had a great fondness for making the acquaintance of foreigners. He first forged a letter of recommendation to her in favour of a German nobleman, the Baron von Sedlitz Powdertz, whose card was left at her door, and for whom a dinner was immediately planned by Mrs.——, and an invitation sent in form. After waiting a considerable time, no baron appearing, the dinner was served; but during the second course a note was brought to the lady of the house, with excuses from the baron, who was unexpectedly prevented from coming by the sudden death of his aunt the Duchess von Epsom Saltz, which she read out to the company without any suspicion of the joke, and to the entertainment of her friends, among whom was the facetious author.

The Registrar-General reports that the total number of the European emigrants that arrived here last year was 63,325. In 1882 it was 51,503. An increase of nearly 12,000 in a year is not so bad.

An oyster will live to the age of 26 years—that is, in the sea. In the restaurant the chances are decidedly against him. Sometimes he lasts a long time in the restaurant—oh, a very ong time! But he does not live nearly as long as he lasts.

A gentleman visiting a school had a book put in his hands for the purpose of examining a class. The word 'inheritance' occurring in the verse, the querist interrogated one of the youngsters as follows:—"What is patrimony?" "Something left by a father." "What would you call it if left by

This School was reopened on the 14th of this month, and the Committee of Management wish to state that the instruction given at it will be such as to embrace all the branches of a sound primary and secondary education; while in the Senior Department advanced English in its different branches of Grammar, History, Geography, Composition, Literature, Analysis etc. will be taught, Latin, French and Spanish will form part of the regular course, and for these subjects

No Extra Charge

will be made. Music, German, Algebra, Geometry and Drawing will be taught as special subjects to those who may desires them, and in every branch care will be taken to bring the pupils to as high a stage of advancement as their age and abilities will admit. The Junior Department will be preparatory to the Senior. It will thoroughly ground the boys in the simpler parts of a good English Education, viz., Grammar, Geography, Writing, Arithmetic etc., and in this Department there will also be classes for Spanish, Elementary Latin and French, none of which will be charged as extra subjects.

In the Elementary Department every effort will be made to render the School attractive to young children, and to interest them in schoolwork. They will have simple, easy lessons given them in Reading, Spelling, Grammar, Writing, Arithmetic, which last will be made interesting by Oral Exercises on the ball-frame.

Singing will be taught in all the Departments, and Sewing, Knitting and Fancywork will be taught to the girl pupils without extra charge.

While the strictest School-discipline will be enforced, corporal punishment will be resorted to very rarely and only in the most extreme cases.

The School will be connected with the local Examination Scheme of the University of Edinburgh; in order to give advanced pupils an opportunity of gaining a certificate by means of which their proficiency in different studies may be vouched for by competent examiners.

For further information Parents and Guardians are requested to apply to the Head-Master, Mr Connacher, at the School, and to consult the detailed prospectus which can be had on application to Mr. Grant, Calle Cangallo 69.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguente Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

Hard Dollars.....	88
Cedulas E	88½
Cedulas F	85½
National Bank Shares....	130
National Bank Scrip.....	135

The speculation in shares of the National Bank and Cedulas E drags on slowly in a dull monotonous groove, interrupted by fitful starts of feverish activity, which enhance the oppressive dullness of the market. There is a stubborn sameness about operations, whether bona fide or sham, that tires the daily lounger at the ring, and there is a general desire to see new vigor and life enter the decrepit speculation. All look forward with intense anxiety to rumors of news from London; the expectant attitude of the market is eloquent and shews that the speculation hangs on the successful placing of the National loans in the great money market of the world. The history of the negotiation, launching and placing of these loans will afford an interesting chapter, and it is to be hoped that the Government will cull from this experience of running loans from one market to another a lesson for the future negotiation of the thirty million loan. Betting on 'Change is very heavy with regard to the placing of the loans in London this month, but according to all advices it appears that the prospects are most satisfactory and the rise in the quotation of Hard Dollar Bonds may be accepted as a good omen for the success of the placing of the City Improvement and National Bank Government Loans.

All the speculation in the Cedula market is centred in heavy purchases for the end of next month, with a view to keep up prices for the end of this month. The situation is very artificial and operations are very limited, and out of all proportion with regard to dates. Six thousand E changed hands for cash at 88½; 45,000 E were sold for the end of the month at 88¾-½, and 100,000 were sold for the end of February at 88¾. Operations in Series F were very small to-day; 6,000 changed hands for cash at 85¾-½.

The spurt in the National Bank Share market died out this morning, and the speculation has fallen back into its former weak and dull position. Fourteen hundred Shares were sold for the end of the month; the market opened at 130½, fell to 130, rose again to the opening rate, but closed weak at 130. Two hundred Shares were sold for the end of February at 131½. In spite of the large amounts of money taken up yesterday, the market could not be kept up to-day.

Two hundred Certificates of the National Bank were sold this morning at 135, and one thousand more were offered at the same price. The scrip is more freely offered at the present moment and the impending calls may account for the weakness of the stock.

The exchange market is at a stand-still in view of the sailing of the packet Senegal, which took a heavy mail. The exchange market is weak; takers are numerous, and the requirements of the market are larger than usual. The banks did a large business for the mail in small bills.

The money market continues easy; discounts are quoted from 6½ to 7 per cent per annum, first-class paper. Government Bills are done at 7½ to 8 per cent;

Banco de la Provincia

Recibe depositos voluntarios que no bajen de $400m/c. y $16 fts. de curso legal y oro efectivo.

Estos depositos de moneda corriente y moneda legal ganarán interes si permanecen 60 dias; pasados estos se los abona interes desde el dia de su entrada.

Los intereses se pagan en los primeros dias del mes ó en el momento de retirar los depositos; y los no cobrados durante el año se capitalizan concluido el del deposito.

Todo deposito á premio se inscribe en una libreta que el Banco entrega al depositante, en la cual constan ademas las salidas por pago de intereses; no entregandose ninguno sino en vista de la libreta respectiva.

Recibe depositos comerciales, disponibles en todo momento como los anteriores.

Recibe depositos á oro pagaderos á la vista sin interes y á plazo de 60 y 90 dias, ó mas, los que serán devueltos en monedas de oro de curso legal.

Descuenta tres veces á la semana letras con firmas abonadas á plazos de 90 dias, y tambien pagarés de comercio desde siete dias hasta seis meses, con la condicion de ser abonados en la misma especie a su vencimiento.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Duran 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteo a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

El Viernes 25 del corriente
A las 3 de la tarde

Remataremos a la mas alta postura, por orden de su propietario.

El lote num. 28 de la 4ª Seccion de los terrenos cedidos por la Provincia de B. Aires al Gobierno de la Nacion compuesto de 10,000 hectareas.

Linda con el num. 17 del Sr D Gregorio Soler, el numero 29 de Martin L. Munro, num. 42 del Sr D F Ramsay y Bell, num. 27 Riat Hnos, tomando parte de las Salinas Chicas.

La distancia de Bahia Blanca es de 10 a 11 leguas garantidas y la Comisaria de Salinas Chicas esta instalada sobre este mismo campo.

El campo es de muy buenos pastos y con aguada permanente.

Los lotes num. 27 y 42 estan poblados con haciendas vacuna y lanar y del otro lado del Sauce Chico y 6 leguas escasas esta la gran Estancia de los Sres. Ernesto Tornquist y Cia. con 80,000 ovejas, vacas y yeguas, etc.

La proximidad del puerto de Bahia Blanca es de suma importancia, pues facilmente se comprende que los gastos de conduccion para los frutos del pais son insignificantes en un trayecto de 10 leguas a recorrer.

Las comodas condiciones para el pago es otra ventaja que no debe perderse de vista, mitad al contado y mitad a seis meses de plazo con hipoteca del mismo campo y sin interes.

Planos y mas datos pueden obtener en nuestra casa Alsina 78.

Venderemos a la mas alta postura y a los plazos y condiciones mencionados.

28 leguas kilométricas con 70,000 hectareas de muy buen campo de pastos tiernos y fuertes, propios para vacas y ovejas, con espléndidas aguas permanentes en algunos parajes y facilidad con otros para hacer jagüeles.

Los campos que ofrecemos se remataran por disolucion de sociedad, y por consiguiente sin base.

Los lotes son: letaa C. núm, 6 con el pueblo General Acha y Ns. 19, y 22 y 33 de la Seccion 10ª, y lindando con los tres lotes anteriores y cada lote compuesto de 4 leguas kilométricas y a 5 leguas al Sud Oeste distante del Pueblo General Acha, la segunda Bahia Blanca del Sud, por su floreciente comercio y el gran desarrollo de la poblacion, pues cuenta ya en la actual con el servicio de dos galeras, la del señor Camacho (via del Sur) que sale de la Estacion "La Gama" F.C.S. los dias 10, 20 y 30 de cada mes teniendo sus agencias calle Moreno 243 y la del señor Negri, agencia Tucuman 9 y 11, que sale desde Chivilcoy los 9 19 y 29 de cada mes, y ambas Empresas hacen este servicio sin suvencion de ningun género lo que demuestra que puedan vivir y son sostenidas por el comercio y la poblacion del pueblo General Acha, que sera la Capital de la Gobernacion de una seccion de los Territorios Nacionales.

Como se vé, esto pueblo tiene comunicacion. cada tres dias con la Capital y pronto sera diaria por medio del telégrafo en via de construccion y cuyos postes estan ya muy cerca.

Para demostrar la bondad de estos campos solo nos bastara mencionar las estancias existentes en la jurisdicion de General Acha:

Señores Anchorena, agrimensor Castex Lopez Osornio (en 3 cruzes), Real y Oliver (en Aztehuco), Frisch-Patrick (Sucinas Grandes), Teves Tobio, Corvalan, Gimenez, de los Santos, Gauda, Loza y Lozcano (Chiluhue), D. Simon (Signelco), Candelria y Escandy Hopcipel y Maraco), Balcarce y Herera (Resseco Grande), Mater y Lessie (en Quini Molal) agrimensor Cascallar en (Pichi Rinanco) y muchos otros pobladores cuyos nombres no recordamos y ademas el espacio no nos permite estendernos mas sobre estos campos.

Los detalles minuciosos y datos estadisticos pueden verse en el folleto que publicamos con el correspondiente plano de las tierras que ofrecemos en venta y que esta a disposicion de los interesados en nuestra casa Alsina 78

Las tierras que se ofrecen en venta, se encuentran ubioadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Bezmara y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantades en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Roverano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la cindad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La riqneza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fé, como puede verse en el mapa adjunto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fé al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van incontinenti a ser colonizadas en gran escala.

Estan depositadas en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuerte la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

Las majadas tienen todas, dos señales, con su dotacion correspondiente de padres estacionados en Marzo y Abril.

La base para la venta es $22 m/c o sean 91 centavos moneda nacional, base infima si se toma en consideracion el estado de las majadas que estan todas bañadas y libre de toda oveja que le falte uno o dos dientes, puede decirse que es como si se hiciera la venta a eleccion.

El comprador de cada majada puede quedarse en el campo si le convinieran los arrendamientos fijados, que son 13,000$ por cada uno de los puestos 1º y 2º y $14000 por el tercero, por año.

Otros, particularmente

Pueden venderse ademas de las majadas que anteceden y bajo las mismas condiciones, con respecto a quedarse en el mismo campo las siguientes majadas—

El Ferro Carril a Campana cruza el campo, cuya estacion dista unicamente 20 cuadras. En el campo existen 3 chacras con sementeras de trigo y maiz que estaran recojidas cuando se entregue la propiedad, que no reconoce ningun contrato de arrendamiento.

Creemos de todo punto inutil demostrar la importancia de la localidad, que tiene a pocas cuadras uno de los mas grandes rios del mundo y un esplendido y seguro puerto donde cargan y descargan sus mercaderias vapores de ultramar.

Es sabido que la via fluvial es la mas barata de todas, de manera que es una gran ventaja para cualquier industria que se establezca alli.

La base que se ha fijado para la venta de este campo es infima; 500$ hectares, y en prueba de ello no tenemos mas que recordar que el campo que ocupa la Compania Inglesa para la conservacion de nuestras carnes, fue vendido por los Sers. Eduardo y Luis Cortes a razon de 3000$ mas o menos la hectarea: mas de seis mil pesos la cuadra cuadrada. Reconoce esta propiedad una hipoteca de 10,000$f de la Seria E, con la cual puede continuar el comprador a estilo de plaza.

Es un establecimiento de campo ya hecha y formado hace algunos años, a 3 leguas del mismo pueblo de Bahia Blanca y a media legua del ejido.

El campo es de buenos y abundantes pastos, con aguada permanente, sobre el arroyo del Saladillo de Montoya y tendra una estacion el Ferro Carril allí mismo, lo que es una gran ventaja.

Tiene dos puestos con dos jaqüelos en el fondo, y la poblacion principal sobre el Saladillo se compone de 7 piezas de material, todos los techos de fierro y material, pisos de tabla y todas con cielos rasos, 3 de ellas son empapeladas, formando en conjunto una elegante y comoda casa de campo; tiene ademas su correspondiente dotacion de material y un galpon forma de rancho de 18 varas de largo por 8 de ancho, paredes de barro reforzadas con fiandubay, piso de tabla propio para esquila o deposito de frutos, 2 piezas de barro, 1 ramada, corral de fiandubay y una quinta alambrada con buen alfalfar, cerco de cina-cina y muchas plantas frutales y de adorno.

Los linderos del campo son los Sres. Vicente Caziglio, M Grigg (antes Claraz), Diehl, Tornquist y Ca, Perez, Noraro y otros. La base para la venta de esta magnifica propiedad es $600,000m/c, reconociendo una hipoteca de 200,000$ a 12,000$f a favor del Banco Hipotecario, Serie B, con la cual puede seguir el comprador, a estilo de plaza; asi que con un pequeño desembolso se puede adquirir una estancia perfecta. El Domingo 10 de Febrero
A las 5 en punto de la tarde

Procederemos a la venta en subasta publica, de la importante propiedad arriba designada, bajo la base de ciento veinte mil pesos nacionales oro.

La area de terreno que ocupa con frentes a las calles mencionadas, se compone de 4,751 varas cuadradas y lo edificado esta distribuido en la forma siguiente: a Rivadavia, 8 almacenes incluso la esquina, con altos, a Azcuenaga 10 almacenes, tambien con altos, y en el pasage a la calle Piedad 14 almacenes.

En torno de la gran plaza el trafico de las carretas, toda adoquinada, tiene 4 pabellones con 48 puestos para la venta de carne, y sobre los costados, con calles por medio, tambien adoquinadas, hay cinco pabellones con 39 puestos para verduras, aves, pescado y otros articulos. El gran pabellon tochado, formando plaza en el centro, que se denomina "El Piso," tiene 14 puestos para la venta de fruta y contiguo a el esta el departamento de la administracion con todos los muebles necesarios y gran repuesto de los diversos boletos que se emplean en los cobros diarios.

El edificio tiene seis entradas con grandes portones de fierro, tres a Rivadavia, dos a Azcuenaga, y uno a Piedad. Todo esta edificado en cal, con tirantes y columnas de madera urunday y los techos de teja francesa. Los pisos de carnicerias y puestos de verduras son de cimento hidrofugo Poggi y el del gran pasago, de concreto sistema Aldao. El establecimiento contiene un total de 138 locales para almacenes, puestos de 3m, y a mas un corral, caballeriza con pesebres, letrinas y grandes sumideros, aguas corrientes y gas en todo el establecimiento, interior y exteriormente, con llaves de incendio distribuidas convenientemente.

En poder de los Rematadores estan las escrituras de propiedad, la Concesion Municipal del radio de seis cuadras a todo rumbo, acordada por diez años, de los que hay aun ocho a correr, y el ultimo balance anual de 1883, tomado de los libros de la Campaña, sobre los cuales se puede verificar su exactitud si se quiere. El impuesto que se abona a la Municipalidad en compensacion del radio es de $ 120,000 % al año, pagaderos por trimestres vencidos.

El conjunto de este establecimiento, en sus tres frentes, es de una arquitectura a propósito y presenta un golpe de vista que embelleco aquella localidad. Las veredas que circundan el edificio son de piedra de Escocia.

Creemos escusado entrar a encomiar la importancia del negocio que se desarrolla en aquel mercado y que aumenta diariamente, a punto de ser muy pocos los locales que se encuentran desocupados.

Prevenimos a los licitadores que exigiremos la entrega del 5 o/o en garantia, sobre el valor de la venta, antes de firmar el boleto.

Aviso al Publico
Los Representantes de las Empresas de Tramways que suscriben, en el deseo de evitar las continuas dificultades que se susciten entre los pasageros y los Mayorales, motivadas por la diferencia de moneda y escasez de cambio, y en atencion a que las transacciones deben arreglarse a Moneda Nacional, han resuelto que desde el Primero de Febrero proximo rija la siguiente tarifa:

Pasage de $2 %.....	10 cts. m/n
" 3 y 4.....	15 id
" 5	20 id

Todas las Compañias venderan en sus Estaciones boletos de abono e intercambio con una rebaja de 20 o/o, en libritos de 10 o mas Boletos, los que serviran indistintamente en cualquiera de las lineas; es decir, que un Boleto de abono de la Empresa de Belgrano, sera recibido por cualquiera otra de las Compañias y asi en general; cada Compañia recibira los Boletos de todas las demas.

De esta manera, los que compren Boletos de Abono conseguiran una rebaja sobre los precios existentes, y como la cantidad que se vende es muy reducida y al alcance de todos, no dudamos que el publico aceptara con gusto esto arreglo, que viene a redundar en su beneficio.

GREAT FIRE
IN
GLASGOW.

Patent "Rapid" Fire-Engine.
R. & J. JARVIE,
MANUFACTURERS,
19 Stobcross Street,
GLASGOW.

Testimonial from Alexr. Sinclair, Esq., Manager, *Herald* Office, Glasgow

Office of *The Glasgow Herald*,
Glasgow, 10th Nov., 1883

Gentlemen,

In connection with the Great Fire in Buchanau Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.

I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

Yours truly,
(Signed), ALEXANDER SINCLAIR.

To Messrs. R & J Jarvie,
19 Stobcross Street,
Glasgow.

Extract from *Chambers's Journal*, 26th May, 1883.

"Knowing as we do that prompt measures taken at the first may save the premises, we have introdnced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. They are mamufactured by R & J Jarvie, 19 Stobcross Street, Glasgow.
